

Book announcement

Practical Genetic Algorithms
John Wiley & Sons, Hoboken, New Jersey 2004, 253 pages

Randy L. Haupt, Sue Ellen Haupt

CONTENTS

Preface

Preface to First Edition

List of Symbols

1. Introduction to Optimization
 2. The Binary Genetic Algorithm
 3. The Continuous Genetic Algorithm
 4. Basic Applications
 5. An Added Level of Sophistication
 6. Advanced Applications
 7. More Natural Optimization Algorithms
- Appendix I Test Functions
Appendix II MATLAB Code
Appendix III High-Performance Fortran Code
Glossary
Index
